

MULTIGRAIN SEEDED BREAD (CEREAL PLUS 50%)

PULLMAN BREAD

DIFFICULTY LEVEL B B

BREAD DOUGH

INGREDIENTS		PREPARATION
CEREAL PLUS 50%	g 5.000	Knead CEREAL PLUS 50%, flour, water and yeast.
TYPE 00 WHITE FLOUR - FOR BREAD	g 5.000	When the gluten structure is well formed and streched out, gradually add the oil in a stream, in
WATER	g 5.500	more than one step, until the dough is smooth and elastic.
OLIVE OIL	g 400	Consider that the kneading time is about 15 minutes and that the temperature of the dough at
YEAST	g 400	the end of the kneading shall be 26-27°C.
		N.B. The kneading time refers to the use of a spiral kneading machine.

FINISHING

INGREDIENTS

To Taste AMAVITA DECO'

FINAL COMPOSITION

Let the whole dough rest for 15-20 minutes at 22-24°C.

Divide the dough into portions (the scale depends on the size of the pans you choose).

Transfer the portions of dough into the pans and let rise at 28-30°C, with relative humidity of the 70-80%, for 45-50 minutes.

Before baking, moisten the loaves on top and decorate with AMAVITA DECO'.

Bake at 220-230°C for about 20 minutes in the case of 70g loaves and for 50 minutes in the case of 500g loaves.

Let cool down a little bit, then unmould the pullman bread.

N.B.

- The recommended times for resting and rising refer to 200g portions, so they have to be slightly lengthen for bigger portions and shorten for smaller portions.
- If you do let the dough rise out of a proofer room, cover it with a cloth to prevent the surface from drying out.
