FINAL COMPOSITION

CASTER SUGAR

Before baking, brush the focaccia with beaten egg, sprinkle it with plenty of Caster sugar and gently press the surface with your fingertips.

Then, evenly spread some butter curls on top.

Bake at 220°C for about 10 minutes (short time baking at high temperature).

Besides the "plain" version explained so far, it is possible and advisable enrich the foccaccia with a topping such as HONEYFILL or FRUTTIDOR.

### AVVERTENZE:

- You can freeze the product right after you place it in the moulds.
- When you need to use it, remove the focaccia from the freezer and store it in the fridge overnight, so that, the next morning, it will only need a short rising time in the proofer room before baking.

To Taste

## AMBASSADOR'S TIPS

You can replace the whole dose of butter with margarine in the same amount.
