### FINAL COMPOSITION

After the rest time, roll out the laminated dough to 4 mm, then cut into triangles and put a little bit of HONEYFILL in the middle of the base.

Roll the triangles up well tight, from the base up, and bend the tips in order to give them a crescent shape.

Place them onto trays and store into the proofer room at 25-26°C for about 3 hours, if the dough is laminated with butter, and at 28-30°C for about 2 hours if you used margarine instead.

Brush with beaten egg and bake at 180-190°C for 15-18 minutes.
