Add salt and JOYPASTE VANIGLIA BIANCA, continue kneading until the dough is velvet smooth.

Leave the dough to rest for about 40 minutes at room temperature covered with a plastic sheet, so the leavening can start.

Divide the dough into two pieces and put them in the fridge to have a better result in the roll out process.

LAMINATED DOUGH

INGREDIENTS

KASTLE CROISSANT

g 500

PREPARATION

Use a 500g piece of KASTLE CROISSANT for each dough.

Lay the laminated margarine onto a half and fold so that the other half cover the first and the sheet of margarine is completely enclosed in the dough. Roll out in order to shape the dough into a rectangle and make a 3-layer fold and then a 4-layer-fold.

Leave it to rest for 20 minuter (keep the dough at 3/5°C)

WARNINGS:

- It is also possible to prepare the dough in the evening, keep it in the fridge and then continue the preparation the next morning. In this case, use less yeast (80g instead of 120g)

FINAL COMPOSITION

Roll the laminated dough out to 4 mm.

Cut the dough into triangles of the desired weight and roll them up to form a croissant.

Place them onto trays and store into the proofer room at 26-28°C with relative humidity of the 70-80% for 2-3 hours.

Bake the croissants in a ventilated oven at 165-170°C for about 18 minutes
