PREPARATION

- Mix VEGAN CROISSANT, yeast, water and Kastle Cake or Eylem Cream/Cake until you get a smooth and velvety dough, let it rest for 10-15 minutes at refrigerator temperature (2-4°).
- roll out the dough, place the margarine in the center and fold the dough over it so that it completely wraps it.
- Roll out the dough and fold it over itself in three layers; repeat by folding it into four.
- Let it rest for 10-15 minutes in the refrigerator; then roll it out to a thickness of about 4 millimeters.
- Cut 10x10 cm squares, fold them over themselves diagonally to create triangles.
- Make two cuts about 1 cm away from the edge of the length of 8 cm, so that only the tip of the triangle remains joined and the two cuts do not meet.
- Reopen the triangle and cross the two cut edges of dough by folding them in opposite directions, until you obtain a rhomboid basket.
- Leave in the leavening cell for 80-90 minutes at a temperature of 28-30°C and with a relative humidity of 70-80%.
